

Dear NCTC/NFL RedZone Member:

We want to alert you that we will again be airing a fantasy football show every Sunday morning on NFL RedZone called NFL Fantasy LIVE. The show will air at 11:30 am ET --90 minutes prior to the kickoff of NFL RedZone. This is a show that originates on NFL.com and is being simulcast on NFL RedZone.

The show provides all the pre-game updates, stats, and analysis to help the football fanatic's fantasy lineup for Sunday domination. It will be a hosted show and fantasy players will be able to interact with the show live via twitter and live video chats for instant feedback. Live updates from reporters at NFL stadiums will also ensure fantasy players will be equipped with the latest breaking news. It's great complementary programming to NFL RedZone.

Therefore, the NFL RedZone schedule will be as follows:

11:30 am ET:	NFL Fantasy LIVE
12:58 pm ET: RedZone	Two (2) minute countdown clock to NFL
1:00 pm ET:	NFL RedZone begins
Approx 7:15 pm ET:	Conclusion of NFL RedZone

All your systems need to do is open the NFL RedZone broadcast window at 11:30 am ET and keep it on until the conclusion of NFL RedZone at approximately 7:15 pm ET.
